Re: Intelligence Information

Dear Commissioner Derbonne,

I am writing this anonymous letter to inform you of an emerging plot to have you removed as executive director. Since you have initiated challenges to various operational initiatives within state police, the upper command has grown weary of your oversight. As a result of your oversight and questioning, a movement is afoot to garner support among some LSPC members to have you removed. Although, you are appointed by the governor, I urge you to be mindful of this intelligence. The senior command does not take kindly to not having the LSPC rubber stamp their desires. Demanding dialogue and justification of proposed actions have resulted in frustration and discomfort within the senior ranks. Therefore, you have been deemed an obstacle, who must go!

Influenced by the upper command, the state police member on the board, is allegedly leading the secret charge for your removal. Commissioner Derbonne, I felt that you should be made aware of this emerging plot against you. I hope that you keep this anonymous letter confidentially, but prepare accordingly.

The vast number of troopers welcome the new oversight, and support your efforts.
